

SUSTAINABILITY. NOW.

14.0S™ ACTUALIZE™

Transforming business information into enterprise performance and value.

PCGSERVICES.COM

ENTERPRISE PERFORMANCE. ACTUALIZED.

Connecting, integrating, and visualizing end-to-end business data to get ahead of the business to optimize performance, create new opportunity, and reduce risk.

A CASE FOR SOMETHING BETTER.

Business runs on information. From capital allocation and investment to performance monitoring and improvement, data brings accountability, understanding, and insight needed to run and improve the business.

It is proven that access to trusted, integrated, intelligent, and accessible business information:

- Leads to better decisions
- Optimizes business processes and workflows
- Tightens collaboration and partnership
- Improves employee and worker satisfaction
- Contributes to healthier balance sheets

Many of today's analytics solutions rely on pre-packaged reporting or basic analytics options, neither of which are designed around you, your business, and your unique information needs. It's time for something better.

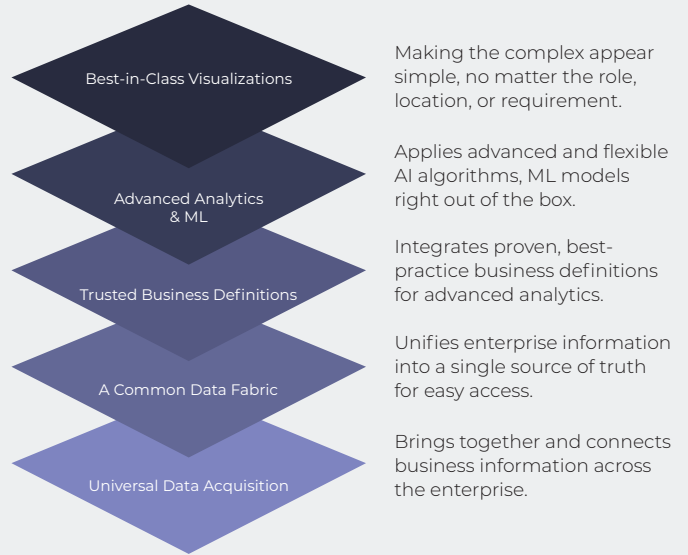

ACTUALIZE™ enables businesses to realize the value and benefit of connected, integrated, intelligent and trusted enterprise data to:

- Engage people in better decisions
- Anticipate and overcome challenges early
- Optimize opportunity and overall performance
- Streamline processes for lower cost
- Deliver superior customer experiences

ACTUALIZE™ moves business beyond pre-packaged reporting and analytics to complete, end-to-end predictive business information solutions that include machine learning, artificial intelligence, unparalleled security, scalability, and extensibility to devices, systems, and people—no matter where they might be.

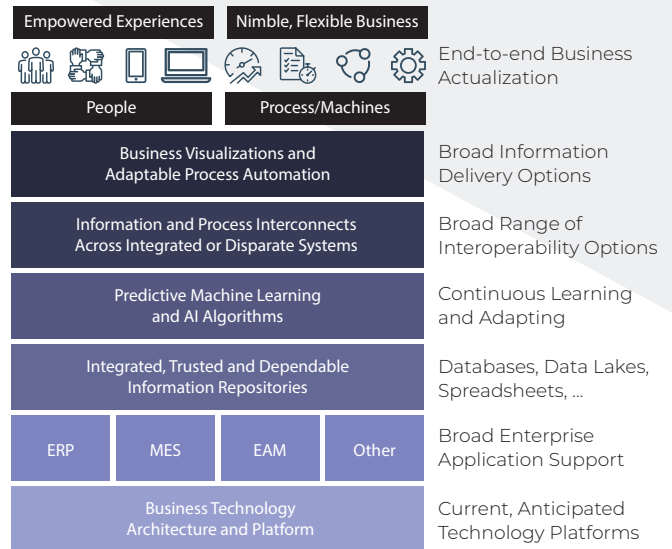

ACTUALIZING THE BUSINESS.

ACTUALIZE™ advances analytics for every business with:

EASY, PEACEFUL COEXISTENCE.

ACTUALIZE™ advances analytics for business with:
