INDUSTRIAL MANUFACTURING

COMPREHENSIVE SERVICES DESIGNED AROUND YOU.

Industrial manufacturing businesses face unprecedented challenges like:

- Controlling supply chain and inventory levels
- Addressing skilled labor shortages
- Poor production planning, delaying customer deliveries
- Inefficient resource planning, leading to overutilization
- Eroding margins due to ineffective cost management
- Increasing regulatory compliance

Industrial companies have come to rely on PCG to solve complex challenges and resolve problems, optimize operational capability, and improve performance through our comprehensive manufacturing technology, process, integration, skill, expertise, and methodology stack.

THE PCG A&D ADVANTAGE.

PCG delivers on the promise of advanced business technologies, best-in-class processes, information integration, and analytics, and the application of intelligent manufacturing solutions to:

- Quickly and predictably manage suppliers, sourcing, and inventory
- Easily generate sourcing plans for supply flexibility
- Integrate outside manufacturing to keep track of material, labor, and sub-contracting for flexible production
- Have an end-to-end view of inventory from source through WIP to finished goods and shipment
- Improve employee availability
- Embed process maps for faster onboarding and consistent manufacturing execution
- Increase production scheduling intelligence for optimal planning, manufacturing, and completion
- Fully integrate machines, information, and processes
- Make better and quicker decisions
- Improve business security, keeping intruders out
- Meeting shifting regulatory requirements

Explore our specific service areas designed around your manufacturing business. We're confident you'll find the next best step for your operation.
